WE UNDERSTAND

- That your time is important, crucial and valuable to you.
- That business does not entertain delays, inefficiencies or incompetence.
- The restraints associated with regional travel and major airline scheduling
- That you want to be in total control of your travel and work time
- Your increased needs to travel to more regional centers for business
- That productivity and punctuality is paramount
- Your growing requirements for flexibility and having a service that is available to you on demand 24 hrs per day - 7 days a week
- You may need to attend several meetings in one day and that you want to be in total control of your schedule
- That after a very busy schedule, you want to get home safely.

We go the extra mile to ensure that

“FLYING IS MADE EASY FROM START TO FINISH”

IT'S ALL ABOUT RELATIONSHIPS

Our credentials have been put to the test by prominent corporations; Government departments; business operators; senior executives / managers; medical teams and many others, each demanding high standards.

What make us different is that we are totally focused and committed to building long term relationships with all of our clients.

We take the time to listen and understand your needs - then we deliver.

PERSONAL SERVICE

From the moment you call and before you step inside our modern, air conditioned facilities located at Broome International Airport, your friendly, personally assigned flight co-coordinator that will take care of everything to ensure that your trip runs like clock work.

OUR PILOTS

If you need to **travel by air**, our experienced pilots will **get you there**.

All our pilots hold an Australian Commercial Pilot License, Command Instrument Rating and have undergone extensive training to operate in the Kimberley's and its remote areas. Our pilots are highly skilled and trained to the highest industry standards, regularly undergoing flight checks and evaluation to maintain their accreditation.

CUSTOMISED TOURS

For an unforgettable, once in a lifetime experience, spoil yourself with one of our spectacular air scenic tours.

MAINTENANCE AND SAFETY

Your Safety and Piece of Mind is Our No1 Priority.

Broome Air Services has its own modern maintenance facilities located at Broome International Airport, Western Australia.

We have established an impeccable safety reputation as a result of our dedication and commitment to stringent preventative maintenance programs.

We employ fully licensed engineers (full time), with extensive industry experience to ensure that each aircraft is maintained to the highest standard to not only meet, but exceed quality assurance benchmarks.

Other services include engine, component and avionics maintenance, repair and overhaul, aircraft modifications and the provision of spare parts for corporate, general aviation and light aircraft owners throughout the Kimberley region.

We welcome you to visit our modern facilities and have a free “Maintenance Tour” with one of our friendly engineers. (Strictly by appointment)

OUR AIRCRAFT

Our versatile fleet of 14 aircraft includes

King Air 200 “Business Class Travel” available at Broome!

Fly with our new 'KING in the AIR', the luxurious Super King Air 200 - renown as the most successful twin turbo prop business aircraft model of all time.

With a cruising speed of 500 Kmh, the Super King Air 200 is simply in a class by itself

The cabin design is a true masterpiece. Its executive style layout is truly spacious and seats up to 10 passengers in luxurious air conditioned comfort providing unparalleled passenger comfort.

It is equipped with the latest state of the art avionics and intelligent technology.

You can either relax in between important meetings or you can utilise the business - friendly amenities as your 'office in the sky'. It is fitted out with

- Fold up tables * Refreshment centre (hot or cold) * Data Link
- Satellite Phone * Sliding doors for privacy * Private Conveniences
- Adjustable window shades to limit glare * Outlets for Laptops
- in-flight access to your personal luggage from within cabin

Simply put, if you need to conduct business whilst in transit, you can do so with complete privacy, convenience and comfort in an extremely quiet cabin and then arrive at your destination feeling totally relaxed and refreshed.

Cessna 402 Businessliner

Our twin engine Cessna 402's have seating capacity for 8 passengers and a cruising speed of 330kmh.

This aircraft is very modern, spacious and features corporate configuration enabling passengers to conduct their business whilst in transit and in total comfort.

Beechcraft Baron 58

Our twin engine Beechcraft Barons are fitted with club seating and are extremely comfortable, fast and seat 5 passengers and a cruising speed of 370Kmh.

They are ideally suited for those needing to get to important business meetings in a minimum amount of time. The Baron can also carry a very large amount of freight with configuration.

Cessna 210 Centurion - Cessna 206 Stationair - Cessna 182 Skylane

Our extensive fleet of versatile, high performance single engine aircraft carries up to 5 passengers into the remote regions of the Kimberly and Pilbara. They are “the go anywhere”, “land anywhere” type of aircraft and are ideal for bush flying.
