Nigel Gaunt

Red Dirt Photography

Photographic Art Gallery

This award winning photographer invites you to view his work at his new photographic gallery.

Nigel specialises in helping to explore the rugged Kimberley and Pilbara landscapes photographically. He captures the wild light that the area is famous for. His fine art photography is his interpretation of the patterns and textures that nature creates.

"When I photograph a landscape, I want to capture not only the detail of the scene, but more intimately, its mood and soul".
